

Our Only World : Copyright Smart / Broadfoot 2018

Intro : solo

I've run out of stories to tell
About the world I love so well
And the fish who swim in the sea
Who wash their tears in toxicity.

Verse 1 (building in vocal numbers)

You see that every day's a battle
It's too crazy for words
That all the fish swim in plastic
And plastic hurts the birds
With all the nets left around
And all the tin cans as well
We've gotta make a difference
This is our only world (our only world)

Chorus (All In + Harmonies and Backing Vocals)

Singing Hey, Hey!
Let's help our world to make it
Save the day, Hey!
It's ours come on don't break it
We can do more
Let's get everybody down to the seashore
Come on let's mean it
Singing hey Hey!
Let's help our world to make it

Save the day, hey!

It's our's come on don't break it

We can do more

Let's get everybody down to the seashore

Verse 2 (Smaller number of voices building to Chorus)

If the winds of change are coming

It has to be a blast

Or the creatures of the ocean

Will be swimming in the past

The future's not beyond them

This is our only world (our only world)
